

Making Costumes, Masks & Puppets with Heather Killian

Just about anything can be used to make a mask or a costume. We'll use recycled items as much as possible, so please bring in any materials you would like to use.

- Paint and brushes
- flour, bowls, salt and newspaper or brown paper (for paper mache)
- fabrics
- feathers
- long bamboo for giant puppets (if anyone's interested in making them)
- glue guns and glue sticks
- markers
- brown paper
- wire hangers
- duct tape and packaging tape
- cushion/soft foam
- empty water/pop bottles/the thicker plastic ones.

Many of these items can be scraps from other projects that are incorporated into making the puppets.
